

# Great Lakes TeleDENTAL

## TELEDENTISTRY FOR YOUR EVOLVING PRACTICE

Great Lakes TeleDENTAL AI-enabled telehealth solution for **CLEAR ALIGNERS** is designed so you can provide timely, high-quality care while reducing in-patient visits.

The platform is customizable and allows you to:

- > monitor patient progress
- > conduct virtual visits | reduce in-office visits
- > send treatment reminders & answer questions
- > provide educational materials, videos, & photos

HIPAA-compliant teledentistry platform connects dentists and orthodontists directly with patients.

## THE STREAMLINED PORTAL IS EASY TO USE AND ALLOWS YOU TO STAY CONNECTED WITH PATIENTS THROUGH INSTANT MESSAGING AND VIRTUAL VISITS

# HOW DOES GREAT LAKES TELEDENTAL WORK?

## NO EXTRA ATTACHMENTS OR ADDITIONAL EQUIPMENT NEEDED

- > Patients take photos with their cell phones (a teeth selfie) and then submit three views:
  - > Teeth with current aligners in place
  - > Teeth with no aligners
  - > Teeth with new aligners in place
- > Patients also complete a 5-question survey about aligner wear time, how the aligners felt, and any issues they may be having.
- > In addition to the selfie photos and surveys, you can review comparison information to see treatment progression - adjustments can be made and the patient can be encouraged to continue good wear practices. And you can provide educational materials, videos, and photos to help your patient stay the course.
- > Progress is reviewed with a custom treatment scorecard called Treatment MPH™ which provides a quick score for all patients so the case manager or doctor knows which patients may need immediate attention or reminders.
- > The App makes it easy for patients and clinical staff - real time assessment and communication without taking up valuable chairtime.

## FREQUENTLY ASKED QUESTIONS

### What are the licensing options for my practice to begin using TeleDENTAL?

- There are multiple pricing tiers to accommodate 5-500+ patients. As practice needs change, the TeleDENTAL App pricing structure allows you to ramp up. You can offer the application on the App store(s) with your practice name, logo, and custom icon. The App is free for patients.

### Is it difficult and time-consuming to train staff on using TeleDENTAL?

- No, TeleDENTAL specialists offer multiple options to provide comprehensive training and platform personalization for you and your staff. The App is easy to navigate and easy to on-board new patients.

### Can different staff be assigned to specific patients or groups of patients?

- Yes, each staff member can have a custom dashboard with their assigned patients. Patient views can be further filtered on the dashboard using the Care Group feature.

### How are new patients added to Great Lakes TeleDENTAL?

- New patients are added to the platform by simply tapping the New Patient button, then entering the patient's name and email address. The system sends the patient a welcome email that includes two buttons: one to install the App and the other to set their password.

**COMPETITIVELY PRICED, GREAT LAKES TELEDENTAL ALLOWS YOU TO INCREASE PRODUCTIVITY, INCREASE REVENUE, & IMPROVE PATIENT OUTCOMES WITHOUT INCREASING PRACTICE HOURS OR STAFF**
