

Keep Patients Safe with the Only Hygienic Orthodontic Wax

Contaminated when handled repeatedly

Hygienically packaged in single-use applications

Made in U.S.A. | Patent Pending

First to meet current Product Safety Standards¹:

- Hygienic packaging for safe patient and in-office use.
- Tamper-evident packaging.
- Disclosure of ingredients and FDA compliant labeling².

Superior in Performance and Aesthetics:

- Sticks and stays the best with moisture-activated adhesive.
- 17X more transparent than conventional dental wax.
- The only solution for ALL appliances including clear aligner trays.
