UNIZ UBEE DESKTOP 3D PRINTER

UNIZ's UBEE is the most advanced 3D printer, offering unparalleled precision and efficiency.

Features:

- 7" Touch Screen
- Masked Stereolithography (MSLA) technology
- Supreme reliability and accuracy
- Prints 8 dental models in 5 minutes
- Stereo polymer multi-layer film peel
- Ultra large file support
- Multiple control modes
- Dentist and technician friendly

Technical Specifications:

- XY Resolution: 34 microns
- Layer Thickness: 10-200 microns
- Build Volume: 198mm x 124mm x 180mm

- **Unparalleled Speed**
  UBEE provides lightning-fast printing speeds, significantly reducing production times and increasing efficiency.

- **High Precision**
  With advanced MSLA technology, UBEE ensures exceptional accuracy, producing high-quality and detailed prints.

- **Versatile Material Compatibility**
  UBEE supports a wide range of materials, allowing for diverse applications and flexibility in print projects.

- **Stability & Reliability**
  Features a stable frame and high-precision KK guide rails, ensuring precise and consistent print quality even at high speeds.
