2 HAZARD(S) IDENTIFICATION

Classifications:

OSHA Regulatory Status

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

The product contains no substances which at their given concentration, are considered to be hazardous to health.

Hazards not otherwise specified: None

There are no known Adverse Affects.

3 COMPOSITION/ INFORMATION ON INGREDIENTS

The components of this product are embedded in an impervious polymer matrix and are therefore not biologically available. Any hazardous constituents are fixed in the polymer matrix and therefore present a negligible exposure risk under normal conditions of processing and handling. Additives contained in this product do not pose a risk to health unless they are liberated during processing (fumes from melting, dusts). Suitable Industrial Hygiene precautions should be implemented to prevent (respirable) dust and fume exposures. Exposure to (melting) fumes should be kept as low as possible, using suitable ventilation equipment. Dusts and fumes created from secondary processing may be irritating to respiratory tract and skin and should be considered as potentially hazardous. If user operations generate dust, fumes, or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.

4 FIRST-AID MEASURES

Eye Contact: Rinse thoroughly with plenty of water, also under the eyelids. Get medical attention if symptoms occur.

Skin Contact: Wash with soap and water.

Inhalation: None under normal use conditions.

Ingestion: Get medical attention.

Most important symptoms and effects, both acute and delayed:

Symptoms: No information available.

Note to physicians: Treat symptomatically.

5 FIRE-FIGHTING MEASURES

Suitable Extinguishing Media: Dry chemical, CO₂ or water spray.

Specific hazards arising from the chemical: Thermal decomposition can lead to release of irritating and toxic gases and vapors.

Hazardous combustion products: Carbon monoxide. Carbon dioxide (CO₂). Hydrocarbons.

Protective equipment and precautions for firefighters: Use personal protective equipment as required. In the event of fire and/or explosion do not breathe fumes.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:

Personal Precautions: Use personal protective equipment as required.

Environmental Precautions:

Environmental Precautions: Do not allow into any sewer, on the ground or into any body of water.

Methods and material for containment and cleaning up:

Methods for Containment: Prevent further leakage or spillage if safe to do so.

Methods for Clean-Up: Pick up and transfer to properly labeled containers.

7 HANDLING AND STORAGE
